They Live with PH
We work to cure it

Building Community and Improving the Lives of Those with Pulmonary Hypertension Since 2012
Highlights from 2018

2018 Highlights

- Provided 400 PH patients living in hurricane-devastated Puerto Rico with solar panels and power banks for their mobile phones to help them stay in contact with family, friends, an emergency services during the long power outages
- Research committee established to award our first international $50,000 research grant in 2019
- 125 patient impact stories shared
- More than 11,000 miles conquered by our athletes to raise awareness about PH
- Launched the highly successful Peloton Bike Challenge at the PHA Conference, bringing together industry leaders and medical professionals to race for the fight to improve the lives of PH patients
- Reopened the Team PH Unmet Needs Patient Impact Fund with $25,000 to help patients with non-medical unmet needs
- Launched Team PH Africa, adding to our global teams in Brazil, Germany, and Mexico
- Our unique platform has brought together globally 368 Athletes and 350 event participants to build awareness, community and funds to support the mission and work of Team PHEnomenal Hope. We truly are a global community.

Team PH is experiencing exciting growth every year and are making an impact in the lives of those with pulmonary hypertension and their families. But we need your help to continue this immediate impact. Please read on to learn more.
Our Mission Statement

We are in a race to defeat pulmonary hypertension, a rare disease with no known cure that, in some cases, is a terminal diagnosis. Pulmonary hypertension is a serious illness that becomes progressively worse and can be fatal. Although it is not curable at this time, treatments are available that can help lessen symptoms and improve quality of life. Research and meeting patient needs due to this debilitating disease are critical.

Team PHenomenal Hope was created to bring together a worldwide team of individuals to build a community and improve the quality of life for those living with pulmonary hypertension. To succeed in our mission, Team PHenomenal Hope embodies the culture and spirit of endurance racing, bringing together patients, caregivers, athletes, and our donors.

To achieve the above, we:
• Provide a novel platform of endurance athlete & patient partnerships in order to amplify the stories of pulmonary hypertension;
• Develop sustainable funding programs that support medical research and innovative means of patient support; and
• Provide support to grassroots chapters around the world who share our commitment to raising awareness of pulmonary hypertension and improving both patient care and quality of life.

About Team PHenomenal Hope
Team PHenomenal Hope is 501(c)3 organization.

We fund medical research into improved treatments or a cure for those who suffer from it, and we implement programming that focuses on improving the quality of life for those affected by PH, including removing patients from isolation, providing hope, and meeting unmet needs.

Our Programs

Our programs represent the formalized endeavors we have agreed to undertake to help us succeed in our mission, at home and abroad.

#LetMeBeYourLungs
Our Let me Be Your Lungs Program embodies the heart of our organization. This program builds community with those suffering from PH by connecting our athletes and event participants directly with patients. This program truly unites the PH community. This program matches over 150 pairs annually.

Global Team Development
Our Global Team Development Program enables Team PHenomenal Hope to impact PH in a unique and special way around the world. Through partnerships with athletes and our network of known leaders in the international PH community, we are laying the foundation for a global movement and impact. It is our goal to deliver seed grants around the world that use endurance sport to spur PH activism and patient-advocacy.

Unmet Needs Patient Impact Fund
Our Unmet Needs Patient Impact Fund is designed to address the unmet immediate needs of people living with pulmonary hypertension through a series of direct-to-patient microgrants that match the immediate, non-medical unmet needs caused by the disease.

In 2017, we granted out over $40,000 to PH patients who were impacted by Hurricanes Harvey, Irma, and Maria through micro-grants up to $500 each and our Solar Charger project which served another 400 patients. These funds went right into the hands of fragile PH patients who were impacted by these storms. Team PH helped bring other PH organizations together for this highly successful project. No other PH organization is doing this kind of work on its own in the community.

PHenomenal Impact Fund for Global PH Research
This fund will provide research grants for worldwide medical research into improving treatments or finding a cure for pulmonary hypertension. A scientific review committee has been established to award our first competitive international research grant of $50,000.

Building Community by Sharing Patient Stories
We bring patients out of isolation and build community with them by sharing and promoting inspiring PH stories through our social media platforms. We aim to give voice to the patient community, their caregivers, and also to our 150+ athletes around the world who derive inspiration from the patient community. Through August 2018, we have shared 135 patient stories on our social media platforms.

Read more about our programs above at: teamph.org/programs
2019 Goals

- Awarding our first competitive research grant of $50,000
- Awarding an additional $25,000 in unmet patient need fund grants
- Building our Peloton Challenge program at PH related conferences and other venues that bring the PH community together
- Create a Global Teams exchange program to provide novel training opportunities for global PH physicians/researchers.
- Grow our highly successful athlete-based racing program of over 300 events
